It is unheard of for a company to raise its rates more than double. I feel that the government "bailout" money that was give to the state should free up any burden put on the water company. If the rates go up more than double, this is just another way taxing the people. We are not getting more service. Just the same water service for double the money. Do not punish the people that pay their bill on time every month. If the rates increase does go into effect, I will be forced to move. Money is already tight. My rates should stay where they are at. If you want new customers to have different rates then I suggest starting the new customer at higher rates and leave the rest of us who have been paying for years, on time, every month Alone! The water district is becoming greedy and preying on people on people in hard times. Don't do this, or I will leave. Houses are a dime a dozen. I'll go to a city where the rates are reasonable. Not doubling for no reason!!
